EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Bardell on 4/1/2004.

2. Reasons for Examiner's Amendment

In the telephone interview on 4/1/2004, Mr. Bardell gave authorization for Examiner's Amendment to place the case (including rejoined claims 8, 9, 11) in condition for allowance (e.g., deleting the recitation of polymers in rejoined claim 11 in order to make the claim consistent with claim 1; addition of "a" before "base" in claim 1 for clarity; etc.).

3. Claim 1 is generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 8, 9, 11, directed to the species of a base are no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

4. The application has been amended as follows:

In claim 1,

line 5, before "base", --a-- has been inserted.

In claim 11,

line 1, "the melt-processable" has been deleted;

lines 2-3 have been deleted in their entirety.

5. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose or suggest adhesive compositions comprising the recited non-fluorinated thermoplastic polymers in combination with the recited catalyst system containing a base and the specified amount of crown ether, in view of the showings in the specification in regard to improved adhesion characteristics.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Vivian Chen whose telephone number is (571) 272-1506.
